Seamless online payments

EZpay is HealthEZ's online payment system that allows you to easily and quickly pay your portion of medical bills with your payment of choice, including credit and debit cards, and HSA accounts.

After you set up EZpay, every time we process a bill of yours, we will send you an email asking you to approve the payment for the amount due.

EZpay will pay the bill by default if you do not respond to the email in:

- 2 business days for bills under \$250
- 5 business days for bills over \$250

EZpay will combine your payment with payment from your health insurance so that we pay your healthcare provider in full.

One simple statement

We consolidate all of your monthly healthcare expenses into one simple statement. This statement eliminates confusion and provides information about year-to-date deductible and out-of-pocket maximums, and itemized transactions during the current billing period.
